

Люди обыкновенные 0.18. Фракция не отличается никакими сверхъестественными показателями, однако технически развита и разнообразна

Люди - эксперты в строевой работе, имеют широкий и дешёвый доступ к щитам и стрелковому оружию, в том числе огнестрелу.

Маги людей - не сильнейшие из магов, и не самые гибкие, зато люди быстро учатся, хорошо производят сталь и новых бойцов.

Дисциплина людей, как и их способность находить ресурсы для любой задачи - почти легендарны, однако они зависимы от офицеров.

У людей огромный выбор тяжёлой пехоты и банд наёмников, и доступ к именитым наёмникам.

Латники людей - одни из самых лучших подразделений тяжёлой кавалерии в мире, и не стоит недооценивать удар ленса.
