

0.18 Почти все модели в арсенале Нежити - Undead, потому крайне желательно иметь в листе также мага с Death школой, дабы усиливать нежити Ваши культисты - дешёвый расходный саппорт, только личи могут выбирать школу из Death, Blood, Dhar, Shadow, Astral

Почти все модели в вашем арсенале имеют "старшего брата" выполняющего сходную роль, обычно они расположены правее

Модель с Leader может отдавать приказ на всех Swarm моделей в своей группе одновременно.

Особенность фракции в способности любое заклинание Death школы использовать как короткий приказ.

В кампании по окончании боя, в случае успеха, один Death маг может пройти WIP+Level ролл за каждого потерянного Line undead, чтобы аннулировать результат броска последствий
